

# Axel Faure

CREATIVE DIRECTION + 3D + PHOTOGRAPHY

## About Me ↓

I grew up with my Gameboy Color and the Los Santos radio stations from Rockstar Games. Since then my passion for image and sound has never left me. Today it has become my job and I aim through each of my creations to bring a new and creative perspective nourished by my varied inspirations and experiences. I have collaborated with artists labels brands and agencies. These experiences have allowed me to evolve professionally and broaden my perspective on the different creative solutions I use today.
